Hiring Manager – City of Toronto

100 Queen Street W.

Toronto, ON M5H 2N2

Dear Hiring Manager,

I am applying for the position of Software Engineering Intern with your company Pinterest for the Summer of 2021 and I have the qualifications your company is seeking in an applicant.

I have 2 more semesters to go in George Brown College to attain my Ontario College Advanced Diploma and I am ready to pursue my career by securing a position with a well-established company such as Pinterest. I possess the knowledge to assist senior programmers with daily operations by analyzing the needs of the clients and by helping to develop the software needed to meet those needs.

I have experience with current programming languages such as Python, C#, Java, JavaScript, HTML, CSS, PHP, MySQL, ASP.NET and Oracle Database. With these technologies, I have designed and developed software applications that met the technical requirements and functionality of the clients. Some examples of projects I have created are that I have made a client notification program using Bootstrap, MySQL, HTML5, CSS and PHP using the MVC model and a flight manager application in C#.

I have experience debugging programs and troubleshooting technical issues. I possess excellent verbal and writing skills with the ability to convey information effectively and to follow complex instructions precisely. I also have the ability to keep detailed documentation of the work performed and to help train the end user on how to use the applications correctly.

I have strong critical thinking and problem solving skills with the ability to make suggestions that will help improve functionality. I am team oriented and believe in working together to meet client obligations and company goals. I have the ability to work under pressure and meet tight deadlines while maintaining a friendly and positive attitude.

I am confident that I can quickly become a valuable member of your company and you can contact me for an interview by calling (416)-822-0260 and by email at abdurahman.ahmed18@outlook.com.

Respectfully,

Abdurahman Ahmed
